INGLESIDE FARM NURSERIES

OAK GROVE, VIRGINIA

Wholesale Price List

FALL 1959 — SPRING 1960

TELEPHONE: CAPITOL 4-2042

August 20, 1959

FOREWORD

Labor is the largest of all cost items in placement of plant material in its ultimate location in the landscape design. Planting, and care immediately after planting, are perhaps the largest single portion of this big labor charge. Why run the risk of DOUBLING this big planting charge by having to re-plant because you did not buy the best quality plant material from INGLESIDE FARM?

All businesses are not alike. This is particularly true in the nursery business, especially when considering quality of product, quality of service, promptness in expediting orders and shipments, proper handling, and general reliability.

Why don't you see us FIRST for the finest nursery stock obtainable?

Carl F. Flemer, Jr.

Conditions of Sale — Prices, Etc.

The prices named in this list cancel all previous lists. They are based on current market conditions and are subject to change without notice.

Terms

Prices: F.O.B. Nursery At Oak Grove, Virginia

To those with an established record for prompt payment or with satisfactory references, we are glad to extend our regular terms of thirty days from date of invoice.

2% DISCOUNT will be allowed for payment in ten days from date of invoice.

5% DISCOUNT will be allowed for CASH IN FULL with order, providing digging or delivery is scheduled for not less than thirty days from date of order.

Orders for shipment C. O. D. must be accompanied by a remittance for one-third of the amount to insure acceptance. These are our only terms and no salesman or representative is authorized to alter them in any way unless confirmed from the office in writing.

Claims

All sales are made with the understanding that we shall not be liable in event of crop loss, or of damage from other causes over which we have no control.

We will gladly correct any errors, but we cannot entertain any claims that are not made within ten days after receipt of the stock or are made after the stock has once been accepted. Claims should be made promptly in writing on receipt of stock.

Plants become your property upon delivery to transportation company and we cannot be responsible for loss, damage, or delay in transit.

All orders booked are based on the distinct understanding that the purchaser agrees to the conditions of sales as stated above.

Guarantee of Genuineness

We will send out healthy, thrifty stock, true to name. If any nursery stock proves untrue to description or variety name under which it is sold, we hold ourselves in readiness, on proper proof, to replace free of charge such stock that may prove untrue to description or name, or refund the original amount paid. We shall in no case be liable for any sum greater than the amount originally received for said stock.

Delivery

We prefer that you pick up your order with your truck. However, if this is not possible we will make every effort to deliver to you on our trucks or by a public carrier at the time you wish. We try to keep delivery charges as low as possible. These charges Are Net and Due When Stock Is Delivered.

Schedule of B&B Charges

The following charges are made to cover additional cost of balling and burlapping trees and shrubs that are not listed B&B. The ball sizes, unless otherwise specified, are always dug according to A.A.N. "Horticultural Standards" recommendations.

The charges are based on a carefully dug solid ball of earth, laced with rope or wire, and handled according to the best nursery practices.

Size of Plant	Standard Ball Size	Estimated Weight	Charge
15 to 18 in.	9 in.	25 Lbs.	.45
18 to 24 in.	10 in.	30 Lbs.	.50
24 to 30 in.	11 in.	40 Lbs.	.65

3 to 4 ft.	14 in.	65 Lbs.	1.40
4 to 5 ft.	15 in.	75 Lbs.	1.80
5 to 6 ft.	16 in.	100 Lbs.	2.50
6 to 8 ft.	18 in.	150 Lbs.	3.60
8 to 10 ft.	21 in.	225 Lbs.	5.25

An excellent block of *Abelia Grandiflora*

[A]

1-9 10-24 25-more

ABELIA EDWARD GOUCHER—5'

Pink Abelia

Originated by the late Edward Goucher of the U. S. Dept. of Agriculture, Glenn Dale, Maryland. Large lavender-pink blossoms, blooms from May until October, not quite as evergreen as *A. Grandiflora* but is more striking throughout the blooming period. Its low, compact spreading habit of growth makes it very desirable as a foundation plant or low hedge. An excellent salesyard item while still in bloom in the early fall.

12 to 15 in. B&B	1.70	1.55	1.40
15 to 18 in. B&B	1.90	1.75	1.60
18 to 24 in. B&B	2.30	2.10	1.90

30 to 36 in. B&B	3.50	3.20	2.85

ABELIA GRANDIFLORA—8'

Glossy Abelia

A hybrid, which is considered the most hardy of the *Abelia* family. Light pink bell shaped flowers from June through September. Foliage glossy green throughout summer with bronze to purple winter coloring. Easily transplanted, grows rapidly, and has no serious disease or pest problem. We highly recommend our B&B *Abelia* for foundation and hedge planting.

12 to 15 in. B&B	1.45	1.30	1.15
15 to 18 in. B&B	1.70	1.55	1.35

Deduct 15 cents per plant if you prefer not to have Azaleas burlapped.

Azaleas

Experience over the past several winters has proven that INGLESIDE Azaleas come into spring ready to burst out into full bloom. WE HAVE HAD NO WINTER DAMAGE.

As shown in the above photograph, our Azalea producing area is located in a naturally protected section of the nursery. They are grown in full sun under natural soil conditions, which make them tough, hardy, and sure to live when transplanted to your customers garden. The deep green leaf coloring, compact growth, healthy appearance, and solid ball of earth, will be sure to please you.

If you are interested in first quality landscape Azaleas, with a dependable and reliable nursery to assure you of delivery in both spring and fall, we suggest that you become a regular customer of INGLESIDE FARM and be sure to receive your quota of these fine plants.

[B]

BARBERRY (see **BERBERIS**)
BEAUTYBUSH (see **Kolkwitzia**)

1-9 10-24 25-more

BERBERIS JULIANAE—8'

Wintergreen Barberry

Introduced to this country around 1900 from China. Yellow fragrant flowers in April. Bluish-black berries in fall. Foliage shiny green in summer, bronze to bright red tinted through winter. Dense growth habit. Hardest of the evergreen barberries. Suitable for hedges, foundation plantings, and excellent in parks or lawns as a barrier to keep pedestrian traffic on the sidewalks.

12 to 15 in. B&B	1.80	1.65	1.50
15 to 18 in. B&B	2.40	2.20	2.00
18 to 24 in. B&B	3.35	3.10	2.75

3 to 3½ ft. B&B	7.20	6.60	6.00

BERBERIS JULIANAE NANA—5'

Dwarf Julianae Barberry

Originated by U. S. Dept. of Agriculture at Beltsville, Maryland. Flowers are yellow and fragrant. Leaves deeper green than B. Julianae during summer and have brighter red winter coloring. Slower and more compact growth habit than B. Julianae. We recommend this barberry for every purpose that regular Julianae can be used.

9 to 12 in. B&B	1.90	1.75	—
12 to 15 in. B&B	2.40	2.20	—
15 to 18 in. B&B	2.75	2.55	—

BERBERIS THUNBERGI—7'

Green Japanese Barberry

A Japanese plant which has become one of the most widely used of all hedge plants. A rugged, low growing and spiny plant that is noted for its ability to withstand unfavorable conditions. Bright red berries nearly all winter, striking red leaf coloring in the fall.

	1-9	10-49	50-more

CHERRY, FLOWERING (see PRUNUS)
CHIMONANTHUS (see MERATIA)

1-9 10-24 25-more

CORNUS FLORIDA—30'

White Dogwood

By far our finest native flowering tree. Large white flowers in May followed in fall by bright red fruits. Summer foliage has no disease or insect pest. Excellent scarlet fall leaf coloring. An ideal small ornamental tree which we highly recommend. Our block of dogwoods are unusually nice this year.

2 to 3 ft.	1.20	1.10	1.00
3 to 4 ft.	1.80	1.65	1.50
4 to 5 ft. B&B	4.45	4.10	3.65
5 to 6 ft. B&B	6.35	5.85	5.30

8 to 10 ft. B&B	10.80	9.90	9.00

CORNUS FLORIDA RUBRA—30'

Pink Dogwood

A pink flowering variety of C. Florida. Always a very popular salesyard item. Very effective when planted with a white flowering dogwood background or as a specimen tree.

2 to 3 ft. B&B	3.50	3.20	2.85
3 to 4 ft. B&B	4.80	4.40	4.00
4 to 5 ft. B&B	6.00	5.50	5.00
5 to 6 ft. B&B	8.40	7.70	7.00

CORNUS KOUSA—25'

Kousa Dogwood

A native of Japan and Korea which has all the excellent features of our native dogwood. Its blooming period, usually one month later than C. Florida, is the main reason for its growing popularity. We strongly recommend this variety for use on the better landscape jobs.

3 to 4 ft. B&B	3.95	—	—
4 to 5 ft. B&B	5.40	—	—
5 to 6 ft. B&B	7.80	—	—

CRAB APPLE (see MALUS)

CREPE MYRTLE (see LAGERSTROEMIA)

CRYPTOTOMERIA JAPONICA—150'

Cryptomeria

The Japanese timber tree. Very hardy, pyramidal type. A fast growing, interesting, and desirable evergreen tree.

2 to 3 ft. B&B	2.20	2.00	—
3 to 4 ft. B&B	3.55	3.25	—
4 to 5 ft. B&B	5.25	4.75	—
5 to 6 ft. B&B	6.85	6.25	—

[D]

DEUTZIA PRIDE OF ROCHESTER—8'

Large Flowered Deutzia

One of the old favorite Deutzias. Pink flowers changing to white. Hardy, fast growing shrub.

18 to 24 in. B&B	1.20	1.10	1.00
2 to 3 ft. B&B	1.55	1.45	1.30
3 to 4 ft. B&B	1.80	1.65	1.50

Beautifully developed *Cornus Florida* in sizes up to ten feet.

DOGWOOD (see **CORNUS**) **[E]** 1-9 10-24 25-more

ELEAGNUS PUNGENS COMPACTA—10' **Evergreen Eleagnus**

Introduced from Japan. Small, white flowers in October, very fragrant. Foliage is silvery green. A vigorous grower. Excellent for hedges and foundation plantings.

15 to 18 in. B&B	1.80	1.65	1.50
18 to 24 in. B&B	2.15	2.00	1.75

[G]

GARDENIA FORTUNEI—8'

1-9

10-24 25more

Gardenia

Native of China, introduced during Colonial times. Glossy, leathery green leaves, waxy white blossoms have been prized for many years by flower lovers. Every gardner wants a gardenia as a specimen plant in a sheltered location in the yard. Excellent as a fall salesyard plant.

12 to 15 in. B&B	1.80	1.65	1.45
15 to 18 in. B&B	2.15	2.00	1.80
18 to 24 in. B&B	2.65	2.45	2.20

[H]

HEAVENLY BAMBOO (see NANDINA)

HOLLY (see ILEX)

HONEYSUCKLE (see LONICERA)

HYDRANGEA ARBORESCENS GRANDIFLORA—5'

Snowhill Hydrangea

Found in native Ohio. Dense upright growth. Large double white panicles which when fully open make a beautiful display. Very popular and easy to grow.

18 to 24 in. B&B	1.20	1.10	—
2 to 3 ft. B&B	1.55	1.45	—
3 to 4 ft. B&B	1.80	1.65	—

HYDRANGEA OTAKSA—3'

Blue Hydrangea

A variety developed to bear deep blue flowers. Widely used as a foundation plant and is popular as a potted plant for forcing into bloom in the greenhouse.

2 yr. hvy. clumps B&B	1.80	1.65	1.50
3 yr. hvy. clumps B&B	2.40	2.20	2.00

[I]

ILEX AQUIFOLIUM—80'

English Holly

Native to the British Islands and parts of Europe. Deep green glossy leaves. Bright red berries. Makes the finest of Christmas decorations and is extensively grown on the west coast for this purpose. We recommend this plant to be more widely used as an ornamental shrub or tree in our area.

12 to 15 in. B&B	2.40	2.20	2.00
15 to 18 in. B&B	3.60	3.30	3.00

2 to 3 ft. B&B	6.00	5.50	5.00
3 to 4 ft. B&B	8.40	7.70	—

ILEX CORNUTA BURFORDI—25'

Burford Holly

A Chinese holly clone of superior merit. Large red berries, dark lustrous green foliage. This variety is especially useful for foundation plantings, a large specimen shrub, or hedge. Most desirable and highly recommended.

12 to 15 in. B&B	2.75	2.55	2.25
15 to 18 in. B&B	3.00	2.75	2.50
18 to 24 in. B&B	3.60	3.30	3.00
24 to 30 in. B&B	4.80	4.40	4.00
30 to 36 in. B&B	6.60	6.05	5.50

Japanese Hollies are a specialty with us. *Ilex Crenata Convexa*, shown above. Also in good supply are *Ilex Crenata*, *Hetzi*, and *Rotundifolia*.

ILEX CRENATA—20'

Japanese Holly

Introduced from Japan in 1864. We offer this variety in selected seedlings grown to perfection. The leaf shape and growth habit vary somewhat among the individual plants. They are very suitable plants for foundation planting, for hedges, screens or park planting. Vigorous grower. Stands clipping.

	1-9	10-24	25-more

24 to 30 in. B&B	5.40	4.95	4.50

ILEX CRENATA HELLERI—2'

Dwarf Japanese Holly

A dwarf compact form. Very small leaves, slow growing. Useful in large window boxes, foundation planting and rock garden work. An excellent variety.

6 to 9 in. B&B	1.80	1.65	—
9 to 12 in. B&B	2.75	2.55	—

ILEX CRENATA HETZI—6'**Hetz Japanese Holly**

Similar to *Ilex Convexa* but is a stronger grower with larger, deeper green convex leaves. Makes a handsome plant. Very hardy.

10 to 12 in. B&B	1.80	1.65	1.50
12 to 15 in. B&B	2.40	2.20	2.00
15 to 18 in. B&B	3.00	2.75	2.50
18 to 24 in. B&B	3.95	3.65	3.25
24 to 30 in. B&B	5.40	4.95	4.50

ILEX CRENATA ROTUNDIFOLIA—8'**Roundleaf Japanese Holly**

Large round leaves. Deep green color. Vigorous grower. Very popular and useful for foundation and hedge work. Our plants are sheared to a somewhat globe shape.

10 to 12 in. B&B	1.55	1.45	1.25
12 to 15 in. B&B	1.80	1.65	1.50
15 to 18 in. B&B	2.65	2.45	2.20
18 to 24 in. B&B	3.60	3.30	3.00
24 to 30 in. B&B	4.80	4.40	4.00

ILEX FOSTERI

A hybrid holly with small, narrow leaves. A heavy fruiter and rapid grower.

2 to 3 ft. B&B	4.40	4.00	—
3 to 4 ft. B&B	5.50	5.00	—

ILEX GLABRA—20'**Inkberry**

A native of the eastern United States. Willowy type growth, blue-black berries. An excellent park and roadside evergreen, good in wet locations, in sun or shade.

12 to 15 in. B&B	1.70	1.55	1.40
15 to 18 in. B&B	2.10	2.00	1.75
18 to 24 in. B&B	2.75	2.55	2.25
24 to 30 in. B&B	3.60	3.30	3.00
30 to 36 in. B&B	4.80	4.40	4.00

ILEX OPACA—50'**American Holly**

Native of the eastern United States and considered by many to be our most useful native broadleaf evergreen tree. The plants we offer below are seedlings which we cannot select as to sex. They have been selected as to growth habits and only those plants which show good leaf coloring and appear to be of a vigorous type are offered. Selected seedlings make unusually hardy and bushy specimens. Will make excellent large hedge, windbreak, or specimen tree.

12 to 18 in. B&B	2.15	2.00	1.75
18 to 24 in. B&B	2.40	2.20	2.00
2 to 3 ft. B&B	3.60	3.30	3.00

4 to 5 ft. B&B	7.20	6.60	—
5 to 6 ft. B&B	9.00	8.25	—

ILEX OPACA ARDEN

One of the better named varieties of female American Holly. Large deep red berries, good leaf coloring and growth habit. This variety should be used when one wishes to plant a top quality specimen female Holly.

12 to 18 in. B&B	3.00	2.75	—
18 to 24 in. B&B	3.60	3.30	—

A nice block of Female American Holly. Wonderful for hedges and windbreaks.

ILEX OPOCA EAST PALATKA

1-9

10-24 25-more

An American Holly type discovered near East Palatka, Florida. Leaves small and light green and are not spiny. Heavy fruiter.

18 to 24 in. B&B	3.30	3.00	—
2 to 3 ft. B&B	4.40	4.00	—

ILEX OPACA FEMINA—50'

Female American Holly

These plants are grown from cuttings of beautiful berry bearing specimens. Everyone should have among their lawn trees, one or more Female American Hollies. American Holly stands shearing well, is suitable in shade or sun, wet or dry locations, therefore has many uses as an ornamental plant. Order your berried plants early.

12 to 18 in. B&B	2.40	2.20	2.00
18 to 24 in. B&B	3.00	2.75	2.50

30 to 36 in. B&B	5.40	4.95	—

JUNIPERUS CHINENSIS PFITZERIANA—6'

Pfitzer Juniper

This variety originated in Germany and was introduced in this country around 1900. It has become one of the most popular and well known ornamental evergreens in use today. Wide spreading growth habit, light feathery foliage texture. Used for foundation and specimen plantings.

12 to 15 in. B&B	2.15	2.00	1.75
15 to 18 in. B&B	2.75	2.55	—
18 to 24 in. B&B	3.60	3.30	—

The best and most hardy of all evergreen privets, *Ligustrum Lucidum Compactum*. See our special prices for this season.

1-9 10-24 25-more

JUNIPERUS EXCELSA STRICTA—10'

Greek Juniper

A broad based pyramidal juniper wth striking gray-green foliage. An excellent item for the plant market.

12 to 15 in. B&B	1.80	1.65	—
15 to 18 in. B&B	2.10	1.95	—
18 to 24 in. B&B	2.70	2.50	—

[K]

KALMIA LATIFOLIA—25'

Mountain Laurel

One of our finest native broadleaf evergreens. Flowers range from white to deep pink in color in May. Likes acid soil and will do well in sun or shade. Used extensively for foundation, park and roadside planting. Our plants are nursery grown.

12 to 15 in. B&B	1.80	1.65	1.50
15 to 18 in. B&B	2.40	2.20	2.00
18 to 24 in. B&B	3.35	3.10	—

KOLKWTZIA AMABILIS—10'

Beautybush

This pink flowering shrub from China has been widely advertised and used. Tall upright arching branches. Grows in most any soil or location. Blooms in May.

2 to 3 ft. B&B	1.55	1.45	—
3 to 4 ft. B&B	1.80	1.65	—

1-9

10-24 25-more

LAGERSTROEMIA INDICA WM. TOOVEY—20' Red Crepe Myrtle

Another Chinese plant introduced during Colonial times and one which has become a familiar plant throughout the south. Its delicate crinkled flowers make quite a show from July through September. Usually grown as a large shrub.

18 to 24 in. B&B	2.15	2.00	1.75
2 to 3 ft. B&B	2.50	2.30	2.10
3 to 4 ft. B&B	3.60	3.30	—

[O]

OREGON GRAPE (see MAHONIA)

OSMANTHUS ILICIFOLIUS—15'	1-9	10-24	25-more
		Sweet Holly	

Introduced from Japan. Small greenish-white flowers in late summer which are very fragrant. Blue-black berries in fall. Leaves are holly-like and throughout the year are a lustrous dark green. Does well in sun or shade. Stands shearing well. Suitable for specimen or foundation planting and we think it is especially suitable for hedges. An excellent plant.

12 to 15 in. B&B	2.30	2.10	1.90
15 to 18 in. B&B	2.90	2.65	2.40
18 to 24 in. B&B	3.60	3.30	3.00
24 to 30 in. B&B	4.80	4.40	4.00

Bushy, heavy White Pine, an especially attractive plant when properly grown, as these are.

OXYDENRON ARBOREUM—30'

Sour Wood

One of our best native trees. Flowers in late summer, a time when flowers are welcome. Very striking crimson fall coloring. Grows best in acid soil.

	1-9	10-24	25-more
2 to 3 ft.	1.40	1.20	1.10
3 to 4 ft.	1.80	1.65	1.50
4 to 5 ft.	2.30	2.10	1.90
5 to 6 ft.	3.00	2.75	—

[P]

PEACH (see PRUNUS)

PHILADELPHUS CORONARIUS—10'

Sweet Mock Orange

A southern European native which is chiefly grown for its fragrant creamy white flowers borne in June. Suitable in dry locations.

18 to 24 in. B&B	1.20	1.10	1.00
2 to 3 ft. B&B	1.55	1.45	1.30
3 to 4 ft. B&B	1.80	1.65	1.50

PHOTINIA SERRULATA—30'

Chinese Photinia

Another oriental plant of excellent merit. White flowers in Apr. followed by red berries in fall. Large green serrated leaves. Bronze color of new growth makes this a very striking plant during the growing season. Very useful as a large shrub or small tree.

18 to 24 in. B&B	2.75	2.55	2.25
24 to 30 in. B&B	3.60	3.30	3.00
30 to 36 in. B&B	4.55	4.20	4.00
3 to 4 ft. B&B	6.00	5.50	5.00
4 to 5 ft. B&B	7.20	6.60	6.00

PICEA EXCELSA (Abies)—80'**Norway Spruce**

For many years since its introduction in Colonial times, this variety has been popular as a Christmas tree and as an ornamental.

15 to 18 in. B&B	2.10	1.95	1.75
18 to 24 in. B&B	2.40	2.20	2.00
2 to 3 ft. B&B	3.30	3.00	2.75

PINUS STROBUS—100'**White Pine**

One of America's tallest growing, most beautiful, most picturesque evergreen trees. Most important as a timber tree and very widely used as an ornamental.

18 to 24 in. B&B	2.40	2.20	2.00
24 to 30 in. B&B	3.30	3.00	2.75
30 to 36 in. B&B	4.20	3.85	3.50

PLUM (see PRUNUS)**POMEGRANATE (see PUNICA)****POPULUS NIGRA ITALICA—90'****Lombardy Poplar**

A native of Europe which has been extensively used as a fast growing screen. Dense columnar growth habit. Easily transplanted and grown.

4 to 5 ft.75	.65	.60
5 to 6 ft.	1.10	1.00	.85
6 to 8 ft.	1.40	1.20	1.10
8 to 10 ft.	1.55	1.45	1.25
10 to 12 ft. 1¼ to 1½"	1.80	1.65	1.50

PRIVET (see LIGUSTRUM)**PRUNUS LAUROCERASUS OFFICINALIS—25'****English Laurel**

Native of Southern Europe. Large, glossy Magnolia-like leaves. Small white flowers followed by black berries. Makes a fine large evergreen shrub. Used widely through the south for specimen, foundation, and wind break planting. Strong and vigorous grower.

12 to 18 in. B&B	1.80	1.65	—
18 to 24 in. B&B	2.15	2.00	—
24 to 30 in. B&B	3.00	2.75	—
30 to 36 in. B&B	3.95	3.65	—

PRUNUS LAUROCERASUS SCHIPKAENSIS—18'**Cherry-Laurel**

Smaller, deeper green leaves than above variety. It's somewhat spreading habit makes it more desirable as a foundation plant for low houses. More hardy than *P. Officinalis*.

12 to 15 in. B&B	1.80	1.65	—
15 to 18 in. B&B	2.30	2.10	—
18 to 24 in. B&B	3.00	2.75	—
24 to 30 in. B&B	3.95	3.65	—

PRUNUS LUSITANICA—60'**Carolina Cherry-Laurel**

A native of Spain and Portugal introduced in Colonial times. Small white flowers, purple fruit. Bronze green leaves. Can be kept sheared for use as shrub or hedge plant or will make an excellent evergreen tree. Rapid grower.

18 to 24 in. B&B	1.80	1.65	1.50
2 to 3 ft. B&B	2.40	2.20	2.00
3 to 4 ft. B&B	3.95	3.65	3.25
4 to 5 ft. B&B	5.75	5.30	—
5 to 6 ft. B&B	7.20	6.60	—
6 to 8 ft. B&B	9.60	8.80	—

PRUNUS NEWPORT—12'**Purple Leaf Plum**

This variety is grown chiefly for its rich purple foliage. Compact and symmetrical growth habit. White flowers in early spring.

4 to 5 ft.	1.80	1.65	—
5 to 6 ft.	2.15	2.00	—
6 to 8 ft.	2.75	2.55	—

PRUNUS PERSICA RUBRA—25'**Red Flowering Peach**

A colorful double flowering tree from China. Very vigorous and is a heavy bloomer as a young plant, hence is unusually popular in the salsyard.

3 to 4 ft.	1.20	1.10	—
4 to 5 ft.	1.55	1.45	—
5 to 6 ft.	1.90	1.75	—
6 to 7 ft.	2.40	2.20	—

PRUNUS SERRULATA KWANZAN—40'**Kwanzan Japanese Cherry**

Most popular and most hardy of the double flowering Japanese cherries. This variety forms a large part of the Washington Tidal Basin display.

4 to 5 ft.	2.65	2.45	2.20
5 to 6 ft.	3.35	3.10	2.80
6 to 8 ft.	4.55	4.20	—

Our heavy calibered Weeping Cherries will make a wonderful accent plant in any garden.

1-9 10-24 25-more

PRUNUS SUBHIRTILLA PENDULA—20' Japanese Weeping Cherry

Graceful weeping habit, attractive pink blossoms in spring. Suitable as lawn specimen. Excellent salesyard plant.

Branches from the ground up:

6 to 8 ft. B&B, Hvy.	12.00	—	—
8 to 10 ft. B&B, Hvy.	18.00	—	—
10 to 12 ft. B&B, Hvy.	24.00	—	—

PUNICA GRANATUM—10'

Pomegranate

A native of southeastern Europe introduced during Colonial times. Handsome flowers throughout summer. Interesting yellow fruits. Seen in many southern gardens. Should be grown only on a sheltered location in this area. We offer red and white varieties.

18 to 24 in. B&B	1.90	—	—
2 to 3 ft. B&B	2.30	—	—

Note our especially attractive prices on Ilex Crenata, Page 15; Ligustrum Lucidum, Page 20, and Nandina Domestica, Page 25.

PYRACANTHA INGLESIDE CRIMSON—12'

This Pyracantha is our selection from a number of seedlings and appears to us to be among the best of all red fruiting varieties. Profuse clusters of large red berries which are colorful throughout the fall months. Suitable as foundation and specimen plant and is especially beautiful when in espalier form against a wall, chimney or fence.

12 to 18 in. B&B	2.15	2.00	1.75
18 to 24 in. B&B	2.75	2.55	2.25
2 to 3 ft. B&B	3.35	3.10	2.75

[R]**REDBUD (see CERCIS)****ROSA WICHURAIANA—10'****Wichurian Rose**

An oriental semi-evergreen rambling rose. White flowers. Strong grower. Especially useful for covering banks and slopes.

12 to 18 in.40	.35	.30
18 to 24 in.60	.55	.45
2 to 3 ft.75	.65	.55

[S]**SALIX BABYLONICA—60'****Babylon Weeping Willow**

A chinese native which has become popular all over the world. Long pendulous branches. One of the first trees to leaf out in the spring. Excellent for waterside planting.

3 to 4 ft.75	.65	.60
4 to 5 ft.90	.80	.70
5 to 6 ft.	1.55	1.45	1.25
6 to 8 ft.	1.80	1.65	1.50
8 to 10 ft.	2.75	2.55	2.25
10 to 12 ft.	3.60	3.30	—

SNOWEALL (see VIBURNUM)**SOUR WOOD (see OXYDENDRON)****SPIREA BUMALADA ANTHONY WATERER—3'****A. W. Spirae**

Of hybrid origin this variety has become very popular as a low growing foundation shrub. Pink to red flat flower clusters in June.

15 to 18 in. B&B	1.20	1.10	1.00
18 to 24 in. B&B	1.55	1.45	1.30
24 to 30 in. B&B	1.80	1.65	1.50
30 to 36 in. B&B	2.30	2.10	1.90

SPIREA PRUNIFOLIA PLENA—9'**Eridalwreath**

An oriental variety with double white flowers in early spring. Excellent orange leaf coloring in the fall. A good salesyard plant in the spring when in bloom.

2 to 3 ft. B&B	1.55	1.45	1.30
3 to 4 ft. B&B	1.80	1.65	1.50

The ever popular Weeping Willow, *Salix Babylonica*. Each plant staked and grown right.

1-9 10-24 25-more

SPIREA VANHOUTTEI—7'

Vanhoutte Spirea

The most popular hybrid Spirea. Graceful arching branches covered with handsome white flowers in May. An excellent shrub and unusually suitable for the spring salesyard.

18 to 24 in. B&B	1.20	1.10	1.00
2 to 3 ft. B&B	1.55	1.45	1.30
3 to 4 ft. B&B	1.80	1.65	1.50

SWEET HOLLY (see OSMANTHUS)

SYRINGA CHINENSIS—15'

Chinese Lilac

A hybrid, originated in France. Purple flowers in May. Strong grower. An excellent addition to the Lilac family.

18 to 24 in. B&B	1.20	1.10	1.00
2 to 3 ft. B&B	1.55	1.45	1.30
3 to 4 ft. B&B	1.80	1.65	1.50
4 to 5 ft. B&B	2.40	2.20	—

SYRINGA VULGARIS—20'

Common Purple Lilac

Native of southeastern Europe which has become the favorite shrub of the northeastern states. Fragrant purple blossoms are beautiful as cut flowers. An unusually popular shrub, useful as a specimen or will make an attractive informal flowering hedge.

18 to 24 in. B&B	1.20	1.10	1.00
2 to 3 ft. B&B	1.55	1.45	1.30
3 to 4 ft. B&B	1.80	1.65	1.50

SYRINGA VULGARIS ALBA—20'**Common White Lilac**

Similar to above variety in every respect except has white flowers.

18 to 24 in. B&B	1.20	1.10	1.00
2 to 3 ft. B&B	1.55	1.45	1.30
3 to 4 ft. B&B	1.80	1.65	1.50

2 to 3 ft. B&B	1.80	1.65	—

[T]**TAMARIX PARVIFLORA—12'****Algerian Tamarix**

Introduced from southeastern Europe. Pink fluffy flowers in May. Graceful habit. Blue-green feathery foliage. Useful in dry sandy locations and does well on the seashore.

2 to 3 ft.40	.35	.30
3 to 4 ft.60	.55	.45
4 to 5 ft.75	.65	.55

THUJA OCCIDENTALIS HOVEYI—4'**Hoveyi Arborvitae**

An oval shaped variety growing nearly as broad as it does tall. Excellent salesyard item.

12 to 15 in. B&B	1.80	1.65	1.50
15 to 18 in. B&B	2.70	2.50	2.25
18 to 24 in. B&B	3.30	3.00	2.75

THUJA OCCIDENTALIS NIGRA—20'**Dark Am. Arborvitae**

An improved strain of American Arborvitae, especially holding deep green color during the winter. Broad based pyramid, compact growing, highly recommended.

18 to 24 in. B&B	2.10	1.95	1.75
24 to 30 in. B&B	2.70	2.50	2.25
30 to 36 in. B&B	3.60	3.30	3.00

THUJA ORIENTALIS (Biota)—50'**Chinese Arborvitae**

Chinese arborvitae were introduced to this country during the early 18th century and many popular varieties have been developed. We recommend this pyramidal type, fast growing evergreen for inexpensive landscaping use. Especially suitable for hedges and screens.

2 to 3 ft. B&B	2.30	2.10	1.90
3 to 4 ft. B&B	3.50	3.20	2.85
4 to 5 ft. B&B	4.55	4.20	—
5 to 6 ft. B&B	6.00	5.00	—
6 to 8 ft. B&B	8.40	7.70	—

Nandina Domestica properly sheared to make bushy plants. **Thuja Aurea Nana** and **Thuja Bakeri**. Perfect items for the salesyard.

1-9 10-24 25-more

THUJA ORIENTALIS AUREA NANA—6' **Berkman Golden Arb.**

A selection of T. Orientalis having a bright golden yellow foliage. Compact grower, roundish shape. Very popular as a salesyard item.

9 to 12 in. B&B	1.40	1.20	1.10
12 to 15 in. B&B	1.55	1.45	1.25
15 to 18 in. B&B	2.15	2.00	1.75
18 to 24 in. B&B	2.75	2.55	2.25
24 to 30 in. B&B	3.35	3.10	2.75
30 to 36 in. B&B	4.20	3.80	—

THUJA ORIENTALIS BAKERI—12' **Baker's Arborvitae**

An excellent selection of the oriental arborvitae. Light Green foliage, compact habit, broad pyramid. Very striking in the salesyard and very popular as a foundation plant.

15 to 18 in. B&B	1.80	1.65	1.50
18 to 24 in. B&B	2.15	2.00	1.75
24 to 30 in. B&B	2.75	2.55	2.25
30 to 36 in. B&B	3.30	3.00	2.75

[V]

VIBURNUM BURKWOODI—6' **Burkwood Viburnum**

A hybrid developed from V. Carlesi x V. Utile. Pink, very fragrant flowers in the early spring followed by fruit which varies in color from reddish to black. Vigorous grower. Loose open type of growth. An excellent variety.

18 to 24 in. B&B	2.40	2.20	2.00
24 to 30 in. B&B	3.35	3.10	2.75
30 to 36 in. B&B	4.20	3.85	3.50
3 to 4 ft. B&B	4.80	4.40	—

VIBURNUM CARLESI—5'**Fragrant Viburnum**

From Korea we have this most fragrant of Viburnums. Pink flowerbuds changing to white when open. Black fruits in early summer are attractive to birds.

12 to 15 in. B&B	1.50	1.45	—
15 to 18 in. B&B	2.40	2.20	—
18 to 24 in. B&B	3.60	3.30	—

VIBURNUM RHYTIDOPHYLLUM—12'**Leatherleaf Viburnum**

White flowers in flat clusters in May. Bright red berries in August. Wrinkled leathery leaves make an interesting and distinctive appearance. Grows best in rich well drained soil under slightly shady conditions. An unusual large shrub.

12 to 18 in. B&B	2.15	2.00	1.75
18 to 24 in. B&B	2.40	2.20	2.00
24 to 30 in. B&B	3.00	2.75	2.50
30 to 36 in. B&B	4.20	3.85	3.50
3 to 4 ft. B&B	6.00	5.50	5.00
4 to 5 ft. B&B	8.40	7.70	7.00

VITEX MACROPHYLLA—6'**Lilac Chaste Tree**

An excellent summer flowering shrub native to southern Europe. Aromatic leaves. Lilac colored flowers in July and August.

18 to 24 in. B&B	1.20	1.10	1.00
2 to 3 ft. B&B	1.55	1.45	1.30
3 to 4 ft. B&B	1.80	1.65	1.50

[W]**WEIGELLA EVA RATHKE—6'****Redflowered Weigela**

An old favorite of the Weigelias. Free flowering period. Abundant rich foliage. Spreading upright habit.

18 to 24 in. B&B	1.20	1.10	1.00
2 to 3 ft. B&B	1.55	1.45	1.30
3 to 4 ft. B&B	1.80	1.65	1.50

WEIGELLA VANICEKI—8'**Vanicek Red Weigelia**

Stronger, more upright growth habit than W. Eva Rathke. Larger deeper red flowers. A hybrid of superior merit.

18 to 24 in. B&B	1.20	1.10	1.00
2 to 3 ft. B&B	1.55	1.45	1.30
3 to 4 ft. B&B	1.80	1.65	1.50

WILLOW (see SALIX)

Bareroot Shrubs

We can supply the following varieties of deciduous shrubs, during the dormant season only, dug bareroot and tied in bundles of ten. These shrubs have been transplanted, cut back to assure heavy branching, and are two or three years old. See photograph, Page 24.

Buddlea varieties	Spirae Vanhouttei

2/3 ft. Bareroot55
3/4 ft. Bareroot70
4/5 ft. Bareroot90

How To Handle Your Plant Material

DELIVERY

We supply only stock that has been freshly dug to fill your order. Orders delivered by Ingleside trucks are promptly loaded and are protected in transit by carefully secured tarpaulins.

Call for your loads as promptly as possible after notification, be sure your truck is equipped with plenty of rope and canvas to cover the whole load. Unprotected nursery stock quickly windburns and dries out in transit.

BAREROOT STOCK

Unload promptly after receipt of material. Untie and water the bundles. Heel at once in peat, sawdust, or moist soil preferably under a lath shade protection. Bareroot stock should be potted up or planted before it starts into active growth.

B&B STOCK

Again unload promptly upon receipt of the material. Remove the cords securing the tops of the plants to prevent injury to the foliage. Heel the balls in damp peat or sawdust preferably under lath shade protection and water thoroughly. In the salesyard B&B material is most advantageously displayed in raised peat or sawdust beds. To save time and confusion during rush periods salesyard stock should be individually labeled as to variety and price. Feed the stock every two to three weeks with soluble fertilizer at $\frac{1}{2}$ the manufacturers recommended dilution.

Ingleside Planting Suggestions

To assist you in quickly choosing plant material suitable for various conditions and uses we have endeavored to classify into the following groupings the varieties we produce.

You will note that some varieties are recommended for several types of uses. This is achieved through pruning methods. For example, *Ilex Opaca* and its named female varieties can be kept pruned as a foundation plant, clipped as a hedge or allowed to grow into a tree.

COLORFUL AUTUMN FOLIAGE

- Acer palmatum atropurpureum*, Red
- Acer platanoides*, Yellow
- Berberis julianae*, Red
- Berberis julianae nana*, Red

MEMORANDUM

Ingleside Farm is affiliated with the Princeton Nurseries of Princeton, New Jersey. As their southern representative we are in a position to supply your entire requirements from our combined stock, one of the most complete inventories in the trade. Flowering trees of every kind, vines and ground covers, coniferous evergreens, shrubs in wide assortment, and the finest stock of shade trees in the country are ready for your selection. Weekly deliveries to Oak Grove during the busy season assures you of prompt service on even the smallest order. Truck load deliveries to our establishment can be easily arranged.

Write us or phone CApitol 4-2042. Our representative will be glad to call on you.

An Invitation

Ingleside Farm is very conveniently located to the Richmond, Washington, and Baltimore market area. This gives you the opportunity to visit us easily in order to look over our stock before purchasing, and allows you to call on us throughout the planting season to quickly replenish your supply of stock. Our convenient location gives you the advantage of reasonable delivery charges and prompt service.

We cordially invite you to visit us and respectfully solicit your patronage.
